

Html_task7

هل هناك إختلاف بين هذه العناصر عندما يتم إظهارهم في الصفحة أم لا ؟

```
<p class="element">Welcome To The New World</p>  
<p class='element'>Welcome To The New World</p>  
<p class=element>Welcome To The New World</p>
```

No all of them are the same as “” is the same as ‘

Only one word can be used as a value of the attribute without “”,,” (if more than one word quotations should be used as it will treat the first word as value and the rest as new attributes)
